Evidence in International Criminal Trials Mark Klamberg 2013-02-21 Evidence in International Criminal Trials compares procedural activities relevant for international criminal tribunals and the International Criminal Court: evaluation, collection, disclosure, admissibility and presentation of evidence. The book provides guidance on how to confront legal as well as factual issues.

International criminal law 2015

Cassese's International Law Paola Gaeta 2020 This text provides an authoritative account of international law. It preserves and extends Antonio Cassese's exceptional combination of a historically informed, conceptually strong, and practice-infused analysis of international law, comparing the treatment of most issues in classical international law with the main subsequent developments of this constantly evolving field.

Self-Determination of Peoples Antonio Cassese 1995 The self-determination of peoples is a major issue in the world community: both radical and subversive, it serves to grant statehood to oppressed peoples, but also to disrupt existing State structures. This book, the first comprehensive legal account, sets out to trace how this political ideal has turned into an international legal standard. Scrutinising State practice through national digests and UN proceedings the author pinpoints the limits within which this political postulate has gained a foothold in the body of international law and assesses the extent to which it has had an impact on existing legal norms. This is primarily a legal inquiry which, however, looks at

law within its historical and political context and, given its judicial underpinning, makes an important contribution to the study of the interplay of law, history, and politics in international relations.

Man's Inhumanity to Man Antonio Cassese 2003-01-01 Of Yugoslavia in 1999).

Five Masters of International Law Antonio Cassese 2011-03-15 This book consists of interviews with five distinguished international lawyers from the UK, USA, Uruguay and France, conducted by the editor, Antonio Cassese, between 1993 and 1995. Each interview is preceded by a brief 'intellectual portrait' of the interviewee. In his general introduction Cassese stresses that the interviews, all based on the same questionnaire, were intended to bring out not only the main ideas associated with each scholar in the fields of international law and international relations, but also his intellectual and philosophical background, his general outlook and his views of the prospects for the evolution of the international community. In his final essay, Cassese brings together the main threads of the interviews and points to the parallels and divergences appearing from them. This book offers a unique and important insight into the legal minds and outlook of a select group of prominent scholars of international law and legal institutions during the last years of the twentieth century.

Change and Stability in International Law-Making Antonio Cassese 1988-01-01

The Oxford Handbook of International Criminal Law Darryl Robinson 2020-02-24 In the past twenty years, international criminal law has become one of the main areas of international legal scholarship and practice. Most textbooks in the field describe the evolution of international criminal tribunals, the elements of the core international crimes, the applicable modes of liability and defences, and the role of states in prosecuting international crimes. The Oxford Handbook of International Criminal Law, however, takes a theoretically informed and refreshingly critical look at the most controversial issues in international criminal law, challenging prevailing practices, orthodoxies, and received wisdoms. Some of the

contributions to the Handbook come from scholars within the field, but many come from outside of international criminal law, or indeed from outside law itself. The chapters are grounded in history, geography, philosophy, and international relations. The result is a Handbook that expands the discipline and should fundamentally alter how international criminal law is understood.

The Prosecutor and the Judge Heikelina Verriijn Stuart 2009 Earlier this year, the Praemium Erasmianum Foundation bestowed its annual award—the Erasmus Prize—on Benjamin Ferencz and Antonio Cassese, two pioneers in the field of international law. Ferencz, a leading American prosecutor, author, and lecturer, was present at the American war crimes trials in Dachau and was the chief prosecutor in the Einsatzgruppen trials in Nuremburg. Like Ferencz, Cassese was a key figure in the development of international criminal law, serving as the first president of the International Criminal Tribunal for the former Yugoslavia and president of the European Committee for the Prevention of Torture, and chairman of the UN Commission of Inquiry into Violation of Human Rights and Humanitarian Law in Darfur. Cassese is currently the president of the Special Court for Lebanon. In *The Prosecutor and the Judge*, Heikelina Verriijn Stuart and Marlise Simons provide in-depth, revealing interviews with these two advocates of international law. Supplementing the interviews are several key articles written by Ferencz and Cassese that highlight the two men’s achievements and set the development of international law in context.

Cassese's International Law Paola Gaeta 2020-08 Cassese's *International Law* is a new edition of an established classic. Authors Gaeta, Viuales, and Zappal• have built on the legacy of international law luminary Antonio Cassese to offer a thought-provoking and lucid account for today's undergraduates and postgraduates. The authors have refreshed Cassese's original approach, ensuring the book continues to compare the traditional legal position with the developing and evolving law. Advancing areas such as the law of the sea, territorial matters, and international environmental law have been expanded to give proper place to their evolving development, while brand new chapters on international trade and foreign investment have been written to reflect the advancements of these areas. In maintaining the broad structure and approach but providing new material, the authors bring fresh context to Cassese's thinking and provide students with an up-to-date, compelling account of the landscape of international legal thinking.

Current Problems of International Law Antonio Cassese 1978

Un Law, Fundamental Rights Antonio Cassese 1979-02-10 In its forty-fourth session the General Assembly of the United Nations proclaimed the 1990s as the Decade of International Law . One of the main purposes of the decade is the promotion of effective means for peaceful international dispute settlement, and, especially, strenghtening the role of & respect for the International Court of Justice, the principal judicial organ of the United Nations. The editors of this book

contribute to this aim by bringing together a variety of opinions by international legal experts on peaceful dispute settlement. The subject is approached from different angles, ranging from the role of the International Law Commission & the Non-Aligned Movement to human rights & space law disputes, in order to identify areas of international law where room exists for further development of existing means for peaceful settlement of international disputes. A general conclusion which can be drawn from this survey is that the focus of attention should not be aimed primarily at strengthening the role of the International Court of Justice, e.g. by amending some of its rules or by trying to increase its political acceptability through diplomatic efforts. Instead, the focus should be on small scale improvements within specific areas of international law with an emphasis on the relation between dispute settlement & supervision. Furthermore, it seems essential for a real improvement to give non-governmental organisations or private persons a greater role in upholding the rule of international law, whether in domestic courts or in international fora. This work has been published previously in the *Leiden Journal of International Law*, Special Issue (3 LJIL 90).

The Law of Non-International Armed Conflict Sandesh Sivakumaran 2012-08-09 Non-international armed conflicts now far outnumber international ones, but the protection afforded by international law to combatants and civilian is not always clear. This book will set out the legal rules and state practice applicable to internal armed conflicts, drawing on armed conflicts from the US civil war to present day.

International Criminal Law the late Antonio Cassese 2008-03-20 The second edition of *International Criminal Law* expounds the general principles governing international crimes as well as the fundamentals of both substantive and procedural international criminal law. Professor Cassese brings the political and human contexts to the fore.

Realizing Utopia Antonio Cassese 2012-03-08 Bringing together 47 essays by prominent international lawyers, this book reflects on major challenges facing international law and focuses on potential changes and improvements. Its aim is helping to construct a better architecture of world society. As international law's importance continues to grow, this book analyses where it is heading.

Current Problems of International Law Antonio Cassese 1975

The Pillars of Global Law Giuliana Ziccardi Capaldo 2008 This book addresses important changes in key legal issues; it reconstructs a complex legal framework, and the emergence of a new international order that has still not been studied in depth, providing a compass that will prove a useful resource for students, researchers and policy makers within the field of law and with an interest in international relations.

International Law in a Divided World Antonio Cassese 1986 A general introduction to international law in its political and historical context, this work identifies the ideological motivations behind legal rules and institutions. Covering several

issues seldom explored by other commentators, such as the historical evolution of the international community and the fundamental principles governing international laws of economic interaction, the book provides an informative introduction to the complexities of this topic.

The Defence of Mistake of Law in International Criminal Law Antonio Coco 2022-07-21 The adage 'ignorance of the law is no excuse' is significantly inaccurate. Ignorance and mistake of law do, under certain circumstances, exclude responsibility both in national and international criminal law. This monograph updates the existing reviews of law and practice on the topic, aiming to go a step further: it takes the analysis of mistake of law as a starting point for systematic observations about international criminal law in general. First, the volume defines the contours of the defence of mistake of law in general theory of criminal law, distinguishing it from cognate defences and highlighting, most notably, its connection with superior orders. Secondly, it gives an overview of the possible approaches to the defence, offering examples from national law as terms of reference for the subsequent analysis of international criminal law. Thirdly, it surveys the relevant law and practice of international criminal tribunals, with a focus on the International Criminal Court, and it contemplates offences for which a defence of mistake of law may potentially succeed. Finally, the author tries to interpret what the rules on mistake of law applicable before international criminal tribunals imply about the purpose of punishing individuals and to the legitimacy of such punishment. Whilst the discourse on international criminal law is more and more concerned with global politics, *The Defence of Mistake of Law in International Criminal Law* brings back the focus on the appropriateness of imposing a guilty verdict on the individual defendant, a human being constituting the basic unit of each society.

Judicial Dialogue on Human Rights Paolo Lobba 2017-08-28 The book presents a critical assessment on the use of human rights case law by international criminal tribunals. Based on the inadequacies highlighted through this analysis, the book propounds a coherent method to transfer human rights standards into international criminal justice.

State Interest and the Sources of International Law Markus P. Beham 2018-05-11 This book addresses the disparity between positive non-treaty law and its scholarly assessment in the area of moral concepts, understood as altruistic as opposed to reciprocal legal obligations. It shows how scholars are generously willing to assert the existence of a rule of international law, thereby moving further away from actual state practice, not taking into account the factors of legal rhetoric and the core survival interests of the state in the formation of custom and general principles of law. The main argument is that such moral concepts can simply not manifest themselves as non-treaty sources of international law from a dogmatic perspective. The reason is the inherent connection between the formation of the non-treaty sources of international law and state interest that makes it difficult, if not impossible, to assess state practice or *opinio juris* in the

case of altruistic obligations. The book further demonstrates this finding by looking at two cases in point: Human rights and humanitarian exceptions to the prohibition of force. As opposed to the majority of existing works on the subject, *State Interest and the Sources of International Law* takes a bigger-picture approach to a number of distinct problems in international law scholarship by looking at the building blocks of international relations on the one hand, and merging this with sources doctrine on the other. It will be of interest to researchers, academics, and students in the fields of international law, human rights, international relations, political science, legal philosophy, and legal theory.

Terrorism, Politics and Law Antonio Cassese 1991-01-08 This is a highly original analysis of terrorism and its implications for international law and politics, focusing on the "Achille Lauro" affair where a luxury liner was hijacked and hostages were killed.

The Human Dimension of International Law Antonio Cassese 2008-06-19 This volume collects the most important papers of Antonio Cassese, one of the pre-eminent figures in international criminal justice. The papers offer the definitive statement of Cassese's thought, and a unique insight into some of the key developments in modern international law.

Justice in Extreme Cases Darryl Robinson 2020-12-17 The book shows how moral theory can challenge and improve international criminal law and how extreme cases can challenge and improve mainstream theory.

Peremptory Norms of General International Law (Jus Cogens) Dire Tladi 2021-08-16 *Peremptory Norms of General International Law (Jus Cogens): Disquisitions and Dispositions* is a collection of contributions on various aspects of jus cogens in international law.

Reciprocity in International Law Shahradsad Nasrolahi Fard 2015-12-22 In international relations, reciprocity describes an environment in which States support one another for short- or long-term advantage through the balancing of rights, duties and interests. This book examines reciprocity in the context of international law. It considers the role reciprocity plays in the creation and development of international law as well as in the interpretation and application of international law. The book illuminates the reciprocal framework of international law and international relations by examining the role reciprocity plays in different types of States' obligations, including bilateral, bilateralisable multilateral, non-bilateralisable multilateral and obligations erga omnes. The book examines how reciprocity is intertwined with the principle of equality, as the rights and obligations of States are equal irrespective of size and economic or military strength, and the beneficial effects of reciprocity in creating stability and cooperation amongst States.

Research Handbook on International Courts and Tribunals William A. Schabas 2017-02-24 This collection takes a thematic and interpretive, system-wide and inter-jurisdictional comparative approach to the debates and controversies related to the growth of international courts and tribunals. By providing a synthetic overview and critical analysis of these

developments from a variety of perspectives, it both contextualizes and stimulates future research and practice in this rapidly developing field.

De facto International Prosecutors in a Global Era Melinda Rankin 2022-08-18 In the past decades, great strides have been made to ensure that crimes against humanity and state-sponsored organized violence are not committed with impunity. Alongside states, large international organizations such as the United Nations and forums such as the International Criminal Court, 'de facto international prosecutors' have emerged to address these crimes. Acting as investigators and evidence-gathers to identify individuals and officials engaged in serious human rights violations, these 'private' non-state actors, and state legal 'officials' in a foreign court, pursue criminal accountability for those most responsible for core international crimes. They do so when local options to investigate fail and an international criminal tribunal remains unavailable. This study outlines three case studies of witnesses and victims who pursue those most responsible, including former heads of state. It examines their practices and strategies, and shows how witnesses and victims of core crimes emerge as key leaders in the accountability process.

Man's Inhumanity to Man Lal Chand Vohrah 2021-10-18

International Criminal Law: Cases and Commentary Antonio Cassese 2011-02-24 *International Criminal Law: Cases and Commentary* presents a comprehensive, pragmatic explanation of the development of substantive international criminal law through key illustrative cases from domestic and international jurisdictions. Presents concise and stimulating commentaries by the leading academics in the field.

International Law Antonio Cassese 2005 Previous edition, 1st, published in 2001.

The Changing Nature of Customary International Law Noora Arajärvi 2014-04-24 This book examines the evolution of customary international law (CIL) as a source of international law. Using the International Criminal Tribunal for the former Yugoslavia (ICTY) as a key case study, the book explores the importance of CIL in the development of international criminal law and focuses on the ways in which international criminal tribunals can be said to change the ways in which CIL is formed and identified. In doing so, the book surveys the process and substance of CIL, as well as the problematic distinction between the elements of state practice and *opinio juris*. By applying an inclusive positivist approach, Noora Arajärvi analyses the methodologies of identification of CIL in selected cases of the ICTY, and their normative foundations. Through examination of the case-law and the reasoning of courts and tribunals, Arajärvi demonstrates to what extent the court's chosen method of identification of CIL affects the process of custom formation and the resulting system of norms in general. The book will be of great value to researchers and scholars of international law, international

relations, and practitioners with interests in customary international law.

The International Rule of Law Heike Krieger 2019-08-07 This edited volume examines the role of international law in a changing global order. Can we, under the current significantly changing conditions, still observe an increasing juridification of international relations based on a universal understanding of values? Or are we, to the contrary, facing a tendency towards an informalization or a reformalization of international law, or even an erosion of international legal norms? Would it be appropriate to revisit classical elements of international law in order to react to structural changes, which may give rise to a more polycentric or non-polar world order? Or are we simply observing a slump in the development towards an international rule of law based on a universal understanding of values? In eleven chapters, distinguished scholars reflect on how to approach these questions from historical, system-oriented and actor-centered perspectives. The contributions engage with the rise of European international law since the 17th century, the decay of the international rule of law, compliance as an indicator for the state of international law, international law and informal law-making in times of populism, the rule of environmental law and complex problems, human rights in Europe in a hostile environment, the influence of the BRICS states on international law, the impact of non-state actors on international law, international law's contribution to global justice, the contestation of value-based norms and the international rule of law in light of legitimacy claims.

Cassese's International Criminal Law Antonio Cassese 2013-01-31 The third edition of *International Criminal Law* expounds the general principles governing international crimes as well as the fundamentals of both substantive and procedural international criminal law, bringing the political and human contexts to the fore.

The Oxford Companion to International Criminal Justice Antonio Cassese 2009 'The Oxford Companion to International Criminal Justice' is the first major reference work to provide a complete overview of international criminal law. It offers a comprehensive survey of the issues surrounding international humanitarian law and human rights through a range of entries by the leading minds in the area.

Elements of Accessorial Modes of Liability Sarah Finnin 2012-08-27 This volume continues the work of the Preparatory Commission of the International Criminal Court by developing 'elements' for ordering, instigating and aiding and abetting the commission of international crimes under Article 25(3)(b) and (c) of the Rome Statute.

An Introduction to International Criminal Law and Procedure Robert Cryer 2010-05-27 This market-leading textbook gives an authoritative account of international criminal law, and the investigation and prosecution of crime, and guides the reader through controversies with an accessible and sophisticated approach. Now covers developments in the ICC,

victims' rights, alternatives to international criminal justice, and has extended coverage of terrorism.
