The Cycles of American History Arthur M. Schlesinger 1999-06-16 A Pulitzer Prize-winning  
historian discusses “the Cold War, political parties, the presidency, and many broader  
philosophical issues [with] incisive wit” (Library Journal). A celebrated historian, speechwriter, and  
adviser to President Kennedy, Arthur M. Schlesinger Jr. draws on decades of astute observation  
to construct a dialectic of American politics, or as Time magazine called it, a “recurring struggle  
between pragmatism and idealism in the American soul.” The Cycles of American History traces  
two conflicting visions of America—Experiment vs. Destiny—through two centuries of political  
evolution, conflict, and progress. In this updated edition, Schlesinger reflects on the dawn of a new  
millennium and how new social and technological revolutions could lead to a revolution in  
American political cycles. “Whatever the nation’s political future, it can benefit from the intelligence  
and regard for our country’s best traditions evident in these informed and humane essays.”  
—TheNew York Times “Displays the author at his best: trenchant, erudite, crisp.” —Foreign Affairs  
“An excellent and provocative primer on the challenges surrounding the contemporary American  
political setting . . . First-rate history mixed with a strong sense of public service.” —The Christian  
Science Monitor

The Handy American History Answer Book David L. Hudson 2015-07-20 Early civilizations, Native  
Americans, the English colonies, slavery, the American Revolution, the Declaration of

Independence, and the Bill of Rights begin the journey and lay the foundation for the United States of today. The Handy American History Answer Book takes a walk through the economic, political, and social forces, as well as the military conflicts that created, changed, and built the United States. It explains the impact of the biggest events, the wars, the presidents, lesser-known personalities and figures, sports, music, and much more. This handy primer is a captivating, concise, and convenient history of America and Americans. From Washington to the microchip, Columbus to modern terrorist threats, the Anasazi to the iPhone, The Handy American History Answer Book traces the development of the nation, including the impact of the Civil War, the discovery of gold in California, the inventions, the political and economic crises, and the technology transforming modern culture today. It answers nearly 900 commonly asked questions and offers fun facts about American, its history, and people, including What was the Lost Colony? Who were the robber barons? Was the U.S. mainland attacked during World War II? What was Reaganomics? How many states recognize same-sex marriages?

A History of Modern American Criminal Justice Joseph F. Spillane 2012-11-14 In A History of Modern Criminal Justice, authors Joseph Spillane and David Wolcott focus on the modern aspects of the subject, from 1900 to the present. A unique thematic rather than a chronological approach sets this book apart from the competition, with chapters organized around themes such as policing, courts, due process, and prison and punishment. Making connections between history and contemporary criminal justice systems, structures and processes, A History of Modern Criminal Justice offers students the latest in historical scholarship, made relevant to their needs as future practitioners in the field. This book is appropriate for any course on the history of criminal justice.

Modern American Lives: Individuals and Issues in American History Since 1945 Blaine T Browne

2014-12-18 The individuals presented in these narrative biographies significantly, and sometimes decisively, impacted contemporary American life in a wide range of areas, including national politics, foreign policy, social and political activism, popular and literary culture, sports, and business. The combined biographical/thematic approach is designed to serve two purposes: to present more substantive biographical information, and to offer a fuller examination of key events and issues. The book is an ideal supplement for undergraduate courses on The United States Since 1945, as well as for courses on Modern America and 20th Century America.

Asian/American Curricular Epistemicide Nicholas D. Hartlep 2016-08-18 In this important book, Nicholas Hartlep and Daniel Scott's detailed analyses on both visual and historical representations of Asian Americans in textbooks and teacher manuals used in our elementary and secondary schools poignantly tell us that generations of children are growing up being fed this single story about Asian Americans. As Hartlep and Scott write. Asian Americans have once again been constructed as the "good minority" that can succeed on their own and be used as a political instrument to shame the Blacks for their underachievement and their fight for equality. Over and over again, the media has been telling "a single story" about Asian Americans to the public for the past fifty years. The consequence of this fabricated story is that it "discourages others—even Asian-Americans themselves—from believing in the validity of their struggles" (Linshi, 2014, p. 1).

The Circle of Knowledge: A Classified, Simplified, Visualized Book of Answers Various 2022-06-02

The Circle of Knowledge is an informative book that was designed in 1917, to be both inspiring and entertaining. The book represents the modern, progressive spirit which fits that time, in its forms of expression and its editorship. The purpose of this work is to answer the why, who, what, when, where, how of the wide majority of curious minds, both young and adult, and encourage them to raise further questions. Special measures were taken in creating this work to isolate

essentials from non-essentials; to differentiate human interest subjects of universal significance from those of little concern; to deliver living truths instead of dead vocabulary; and finally, to bring the whole within the knowledge of the intermediate reader, without regard to age, in an acceptable and exciting form. The use of visual outlines and tables; maps, drawings, and diagrams; the illustrated works of great painters, sculptors, and architects all are used to give the reader the valuable and cultural knowledge of past and present.

From Ivory Tower to Academic Commitment and Leadership Amalya Oliver-Lumerman 2021-02-26 How is the public mission of universities to change in the face of today's global challenges? How is the 21st Century university to balance its long-standing traditions and its commitment to teaching, research and commercialization with rapidly changing social needs and conditions worldwide? And how does the newly defined public role of the university reflect on changes to non-profit organizations in general? Amalya Oliver-Lumerman and Gili S. Drori offer a new model of academic commitment and leadership in response to questions about the new public role of the university.

Picking Presidents Gautam Mukunda 2022-10-18 Celebrated leadership expert and political scientist Gautam Mukunda provides a comprehensive, objective, and non-partisan method for answering the most important question in the world: is someone up to the job of president of the United States? In Picking Presidents, Gautam Mukunda sets his sights on presidential candidates, proposing an objective and tested method to assess whether they will succeed or fail if they win the White House. Combining political science, psychology, organizational behavior, and economics, Picking Presidents will enable every American to cast an informed vote. In his 2012 book Indispensable, which all but predicted the Trump presidency, Mukunda explained how both the very best and very worst leaders are "unfiltered"—outsiders who take power without the

understanding or support of traditional elites. Picking Presidents provides deep analysis of filtered and unfiltered presidents alike, from failed haberdasher and skillful president Harry Truman, to the exceptionally well-qualified—and ultimately reviled—James Buchanan; from Andrew Johnson, who set civil rights back by a century, to Theodore Roosevelt, who evaded party opposition to transform American society. Picking Presidents lays out a clear framework that anyone can use to judge a candidate and answer the all-important question: are they up to the job?

Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office 1963 Includes Part 1, Number 1: Books and Pamphlets, Including Serials and Contributions to Periodicals (January - June)

The Printed Book in Contemporary American Culture Heike Schaefer 2019-08-28 This essay collection explores the cultural functions the printed book performs in the digital age. It examines how the use of and attitude toward the book form have changed in light of the digital transformation of American media culture. Situated at the crossroads of American studies, literary studies, book studies, and media studies, these essays show that a sustained focus on the medial and material formats of literary communication significantly expands our accustomed ways of doing cultural studies. Addressing the changing roles of authors, publishers, and readers while covering multiple bookish formats such as artists' books, bestselling novels, experimental fiction, and zines, this interdisciplinary volume introduces readers to current transatlantic conversations on the history and future of the printed book.

American History Marcius Willson 1856

Wisconsin Library Bulletin 1943

The Past Is a Foreign Country – Revisited David Lowenthal 2015-10-01 The past remains essential - and inescapable. A quarter-century after the publication of his classic account of man's

attitudes to his past, David Lowenthal revisits how we celebrate, expunge, contest and domesticate the past to serve present needs. He shows how nostalgia and heritage now pervade every facet of public and popular culture. History embraces nature and the cosmos as well as humanity. The past is seen and touched and tasted and smelt as well as heard and read about. Empathy, re-enactment, memory and commemoration overwhelm traditional history. A unified past once certified by experts and reliant on written texts has become a fragmented, contested history forged by us all. New insights into history and memory, bias and objectivity, artefacts and monuments, identity and authenticity, and remorse and contrition, make this book once again the essential guide to the past that we inherit, reshape and bequeath to the future.

EI-Hi textbooks in print R. R. Bowker LLC 1983

American Political Culture: An Encyclopedia [3 volumes] Mark J. Rozell 2015-04-28 This all-encompassing encyclopedia provides a broad perspective on U.S. politics, culture, and society, but also goes beyond the facts to consider the myths, ideals, and values that help shape and define the nation. • Offers approximately 225 entries covering U.S. politics, culture, society, and beliefs • Includes an introductory overview of the forces that have shaped and continue to shape American political culture and a concluding essay that gathers key thematic threads and looks toward the future • Covers the myriad ways in which American political culture influences other aspects of American society • Examines how cultural symbols and beliefs are manipulated to advance political interests and establish government authority • Connects new issues such as social media and sexual politics with the political culture

The American Bookseller's Complete Reference Trade List, and Alphabetical Catalogue of Books in this Country Alexander Vietts Blake 1847

Southern Literature, Cold War Culture, and the Making of Modern America Jordan J. Dominy 2020-

01-27 During the Cold War, national discourse strove for unity through patriotism and political moderation to face a common enemy. Some authors and intellectuals supported that narrative by casting America's complicated history with race and poverty as moral rather than merely political problems. *Southern Literature, Cold War Culture, and the Making of Modern America* examines southern literature and the culture within the United States from the period just before the Cold War through the civil rights movement to show how this literature won a significant place in Cold War culture and shaped the nation through the time of *Hillbilly Elegy*. Tackling cultural issues in the country through subtext and metaphor, the works of authors like William Faulkner, Lillian Smith, Robert Penn Warren, Eudora Welty, Ralph Ellison, Alice Walker, and Walker Percy redefined "South" as much more than a geographical identity within an empire. The "South" has become a racially coded sociopolitical and cultural identity associated with white populist conservatism that breaks geographical boundaries and, as it has in the past, continues to have a disproportionate influence on the nation's future and values.

#### Naval Training Bulletin 1946

*Self-help and Popular Religion in Modern American Culture* Roy M. Anker 1999 The second of two volumes on the relationship between popular religion and the self-help tradition in American culture, this book continues chronologically and spans from Romanticism and the Gilded Age through Norman Vincent Peale and Robert Schuller.

New Directions in American Religious History Harry S. Stout 1998-01-01 The eighteen essays collected in this book originate from a conference of the same title, held at the Wingspread Conference Center in October of 1993. Leading scholars were invited to reflect on their specialties in American religious history in ways that summarized both where the field is and where it ought to move in the decades to come. The essays are organized according to four general themes: places

and regions, universal themes, transformative events, and marginal groups and ethnocultural "outsiders." They address a wide range of specific topics including Puritanism, Protestantism and economic behavior, gender and sexuality in American Protestantism, and the twentieth-century de-Christianization of American public culture. Among the contributors are such distinguished scholars as David D. Hall, Donald G. Matthews, Allen C. Guelzo, Gordon S. Wood, Daniel Walker Howe, Robert Wuthnow, Jon Butler, David A. Hollinger, Harry S. Stout, and John Higham. Taken together, these essays reveal a rapidly expanding field of study that is breaking out of its traditional confines and spilling into all of American history. The book takes the measure of the changes of the last quarter-century and charts numerous challenges to future work.

Social Education Erling Messer Hunt 1978 Includes section "Book reviews".

Modern American Short Story Sequences Maxwell F. Kennedy 1995-01-27 Originally published in 1995, this book explores American short story sequences as a twentieth-century genre.

The Handy History Answer Book David L Hudson 2012-09-01 Our country and the world is changing fast, and a knowledge of history helps us understand the hows, whats, and whys of modern civilization. White Trash Nancy Isenberg 2016-06-21 The New York Times bestseller A New York Times Notable and Critics' Top Book of 2016 Longlisted for the PEN/John Kenneth Galbraith Award for Nonfiction One of NPR's 10 Best Books Of 2016 Faced Tough Topics Head On NPR's Book Concierge Guide To 2016's Great Reads San Francisco Chronicle's Best of 2016: 100 recommended books A Washington Post Notable Nonfiction Book of 2016 Globe & Mail 100 Best of 2016 "Formidable and truth-dealing . . . necessary." —The New York Times "This eye-opening investigation into our country's entrenched social hierarchy is acutely relevant." —O Magazine In her groundbreaking bestselling history of the class system in America, Nancy Isenberg upends

history as we know it by taking on our comforting myths about equality and uncovering the crucial legacy of the ever-present, always embarrassing—if occasionally entertaining—poor white trash. “When you turn an election into a three-ring circus, there’s always a chance that the dancing bear will win,” says Isenberg of the political climate surrounding Sarah Palin. And we recognize how right she is today. Yet the voters who boosted Trump all the way to the White House have been a permanent part of our American fabric, argues Isenberg. The wretched and landless poor have existed from the time of the earliest British colonial settlement to today’s hillbillies. They were alternately known as “waste people,” “offals,” “rubbish,” “lazy lubbers,” and “crackers.” By the 1850s, the downtrodden included so-called “clay eaters” and “sandhillers,” known for prematurely aged children distinguished by their yellowish skin, ragged clothing, and listless minds. Surveying political rhetoric and policy, popular literature and scientific theories over four hundred years, Isenberg upends assumptions about America’s supposedly class-free society—where liberty and hard work were meant to ensure real social mobility. Poor whites were central to the rise of the Republican Party in the early nineteenth century, and the Civil War itself was fought over class issues nearly as much as it was fought over slavery. Reconstruction pitted poor white trash against newly freed slaves, which factored in the rise of eugenics—a widely popular movement embraced by Theodore Roosevelt that targeted poor whites for sterilization. These poor were at the heart of New Deal reforms and LBJ’s Great Society; they haunt us in reality TV shows like *Here Comes Honey Boo Boo* and *Duck Dynasty*. Marginalized as a class, white trash have always been at or near the center of major political debates over the character of the American identity. We acknowledge racial injustice as an ugly stain on our nation’s history. With Isenberg’s landmark book, we will have to face the truth about the enduring, malevolent nature of class as well.

Contemporary Mormonism: Latter-day Saints in Modern America Claudia L. Bushman 2006-01-30

Much misunderstood, Mormonism had a colorful beginning in the 19th century, as a visionary named Joseph Smith founded and built a community of believers with their own unique faith. In the late-20th century, the church had to come to terms with its own growth and organization, as well as with the increasing pervasiveness of globalization, secularization, and cultural changes. Today Mormonism is one of the major religions in America, and continues to grow internationally. However, though the church itself remains strong, it is elusive to those of other faiths. Here, a seasoned author and third-generation Mormon sheds light on the everyday lives and practices of faithful Mormons. Bushman's readers will come away with a more thorough appreciation of what it means to be Mormon in the modern world. Much misunderstood, Mormonism had a colorful beginning in the 19th century, as a visionary named Joseph Smith founded and built a community of believers with their own unique faith. In the late-20th century, the church had to come to terms with its own growth and organization, as well as with the increasing pervasiveness of globalization, secularization, and cultural changes. Today Mormonism is one of the major religions in America, and one that continues to grow internationally. However, though the church itself remains strong, it is elusive to those of other faiths. Here, a seasoned author and third-generation Mormon sheds light on the everyday lives and practices of faithful Mormons. Bushman's readers will come away with a more thorough appreciation of what it means to be Mormon in the modern world. Following Brigham Young into the Great Basin and founding communities that have endured for over 100 years, Mormons have forged a rich history in this country even as they built communities around the world. But the origins of this faith and those who adhere to it remain mysterious to many in the United States. Bushman allows readers a vivid glimpse into the lives of Mormons—their beliefs, rituals, and practices, as well as their views on race, ethnicity, social class, gender, and sexual orientation. The voices of actual Mormons reveal much about their inspiration, devotion, patriotism,

individualism, and conservatism. With its mythical history and unlikely success, many wonder what has made this religion endure through the years. Here, readers will find answers to their questions about what it means to be Mormon in contemporary America.

DA Pam 1964

Postwar American Fiction and the Rise of Modern Conservatism Bryan M. Santin 2021-03-11

Bryan M. Santin examines over a half-century of intersection between American fiction and postwar conservatism. He traces the shifting racial politics of movement conservatism to argue that contemporary perceptions of literary form and aesthetic value are intrinsically connected to the rise of the American Right. Instead of casting postwar conservatives as cynical hustlers or ideological fanatics, Santin shows how the long-term rhetorical shift in conservative notions of literary value and prestige reveal an aesthetic antinomy between high culture and low culture. This shift, he argues, registered and mediated the deeper foundational antinomy structuring postwar conservatism itself: the stable social order of traditionalism and the creative destruction of free-market capitalism. Postwar conservatives produced, in effect, an ambivalent double register in the discourse of conservative literary taste that sought to celebrate neo-aristocratic manifestations of cultural capital while condemning newer, more progressive manifestations revolving around racial and ethnic diversity.

Contemporary American Theologies Deane W. Ferm 2004-04-15

The Letters of T. S. Eliot Volume 9 T. S. Eliot 2021-08-31 This volume covers the production of Eliot's play *The Family Reunion*; the publication of *The Idea of a Christian Society*; and the joyous versifying of *Old Possum's Book of Practical Cats*. After exhausting himself through nights of fire-watching in the London wartime blackout, he travels the country, attends meetings of *The Moot*, delivers talks, and advises a fresh generation of writers including Cyril Connolly, Keith Douglas,

Kathleen Raine and Vernon Watkins. Major correspondents include W. H. Auden, George Barker, William Empson, Geoffrey Faber, John Hayward, James Laughlin, Hope Mirrlees, Mervyn Peake, Ezra Pound, Michael Roberts, Stephen Spender, Tambimuttu, Allen Tate, Michael Tippett, Charles Williams and Virginia Woolf. *Four Quartets*, Eliot's culminating masterpiece, is discussed in detail. *The Star-Spangled Banner* Nancy R. Lambert 2016-06-14 Three cheers for the red-white-and-blue in this Smithsonian nonfiction reader! The original Star-Spangled Banner that flew over Fort McHenry, Baltimore, in 1814 and inspired Francis Scott Key to write the words that would become the national anthem of the United States is the showpiece of the Smithsonian! In this lively nonfiction book, young readers will read about the story behind the flag, the song, and how the Smithsonian cares for this most precious national treasure.
