The "People Power" Education Superbook: Book 30. Vocational - Trades - Career Guide 1 (General Knowledge About Technical - Skilled Professions) Tony Kelbrat 2014-04-07 This book has basic contact information for the trades and technical skills including apprenticeship programs and job websites. I cover community colleges and vocational schools in book #2. The trades are really big because they're always there regardless of what high-tech industries come and go. Whenever I go jogging, I always see the plumbing trucks, the electrical trucks, the contractor trucks, the carpet cleaners, window installers, etc. No matter what happens, people always need those basic services. I looked around for an indepth vocational-trades book. I couldn't find one. Here is my attempt at a good comprehensive vocational trades book.

Even in the trades, be very wary about what you decide to go to school for. I've had friends spend a few years taking a certain vocational program like electronic technician or computer tech only to end up not being able to find a job in their field.

Core Curriculum Trainee Guide NCCER 2015 Welcome to the world of construction! Construction is one of the largest industries, offering excellent opportunities for high earnings, career advancement, and business ownership. Work in construction offers a great variety of career opportunities. People with many different talents and educational backgrounds -- skilled craftspersons, managers, supervisors, and superintendents -- find job opportunities in construction and related fields. As you will learn throughout your training, many other industries depend upon the work you will do in construction. From houses and office buildings to factories, roads, and bridges -- everything begins with construction. -- Preface

Eine kurze Geschichte der alltäglichen Dinge Bill Bryson 2012-05-31 Die Welt verstehen, ohne einen Fuß vor die Tür zu setzen Was bleibt nach der „Geschichte von fast allem“ eigentlich noch zu schreiben? Die Geschichte von fast allem anderen, natürlich. Bill Bryson hat sich daher in seinen vier Wänden umgesehen und sich gefragt: Warum leben wir eigentlich, wie wir leben? Warum nutzen wir ausgerechnet Salz und Pfeffer, und weshalb hat unsere Gabel vier Zinken? Aber es bleibt nicht bei Geschichten von Bett, Sofa und Küchenherd. Die Geschichte des Heims ist auch immer eine der großen Entdeckungen und Abenteuer. Ohne die Weltausstellung in London hätte man vermutlich das Wasserklosett nicht so schnell zu schätzen gelernt. Und ohne die großen Entdecker müssten wir wohl ohne Kaffee, Tee oder Kakao auskommen. Bill Bryson zeigt uns unser Heim, wie wir es noch nie gesehen haben. Und wir verstehen ein wenig mehr, warum es so ist, wie es ist.
