Transformation of Higher Education Institutions in Post-Apartheid South Africa Chaunda L. Scott 2019-02-21 This book outlines successful transformation strategies and efforts that have been developed to assist the South African higher education system in moving beyond its post-apartheid state of being. Through case studies authored

by South African higher education scholars and scholars affiliated with South African institutions, this book aims to highlight the status of transformation in the South African higher education system; demonstrate the variety of transformation initiatives used in academic institutions across South Africa; and offer recommendations to further advance this transformation. Written for scholars and advanced students of higher education in international settings, this volume aims to support quality research that benefits the demographic composition of South African academics and students, and offers lessons that can inform higher education transformation in similarly multicultural societies.

Im Unterland Robert Macfarlane 2019-08-19 Ausgezeichnet mit dem NDR Kultur Sachbuchpreis In einer großartigen Entdeckungsreise nimmt uns der vielfach ausgezeichnete britische Autor Robert Macfarlane mit in die dunkle, überraschende Welt unter der Erde. Er führt uns in Höhlenlandschaften in England und Slowenien, zu einem unterirdischen Fluss in Italien, in den Untergrund von Paris, die schwindende Gletscherwelt Grönlands und, zuletzt, in einen Stollen für Atomabfälle, der die nächsten 100.000 Jahre überdauern soll. Sein Buch ist viel mehr als eine fantastische Natur- und Landschaftsgeschichte: Eindringlich schildert er das Wechselspiel zwischen Mensch, Natur und Landschaft – nicht zuletzt als Mahnung, was wir durch unsere Eingriffe zu verlieren drohen.

School Science Practical Work in Africa Umesh Ramnarain 2020-06-01 School Science Practical Work in Africa presents the scope of research and practice of science practical work in African schools. It brings together prominent science educators and researchers from Africa to share their experience and findings on pedagogical innovations and research-informed practices on school science practical work. The book highlights trends and patterns in the enactment and role of practical work across African countries. Practical work is regarded as intrinsic to science teaching and learning and the form of practical work that is strongly advocated is inquiry-based learning, which signals a definite paradigm shift from the traditional teacher-dominated to a learner-centered approach. The book provides empirical research on approaches to practical work, contextual factors in the enactment of practical work, and professional development in teaching practical work. This book will be of great interest to academics, researchers and post-graduate students in the fields of science education and educational policy.

Der lange Weg zur Freiheit Nelson Mandela 2014-01-25 »Ich bin einer von ungezählten Millionen, die durch Nelson Mandelas Leben inspiriert wurden.« Barack Obama
Eine fast drei Jahrzehnte währende Gefängnishaft ließ Nelson Mandela zum Mythos der schwarzen Befreiungsbewegung werden. Kaum ein anderer Politiker unserer Zeit symbolisiert heute in solchem Maße die Friedenshoffnungen der Menschheit und den Gedanken der Aussöhnung aller Rassen wie der ehemalige südafrikanische Präsident und Friedensnobelpreisträger. Auch nach seinem Tod finden seine ungebrochene Charakterstärke und Menschenfreundlichkeit die Bewunderung aller friedenswilligen Menschen auf der Welt. Mandelas Lebensgeschichte ist über die politische Bedeutung hinaus ein spannend zu lesendes, kenntnis- und faktenreiches Dokument menschlicher Entwicklung unter Bedingungen und Fährnissen, vor denen die meisten Menschen innerlich wie äußerlich kapituliert haben dürften.

New Scientist 1979-08-23 New Scientist magazine was launched in 1956 "for all those men and women who are interested in scientific discovery, and in its industrial, commercial and social consequences". The brand's mission is no different today - for its consumers, New Scientist reports, explores and interprets the results of human endeavour set in the context of society and culture.

New Scientist 1971-09-16 New Scientist magazine was launched in 1956 "for all those men and women who are interested in scientific discovery, and in its industrial, commercial and social consequences".
